for Food Selection

Chromatography Consumables for Food Selections

Not every chromatographer has the need for the same vial & closure or the same sample handling container. The here shown selection represent the most used and helpful autosampler products for this segment of the business.

- Certified KITS
- Short Thread and Crimp Neck Vials & Closures
- Microsampling Vials
- Well Plates and Sealmats
- Headspace Vials & Closures

The selection has been made by experts in order to meet the special requirements of this segment and the connected challenges of the “to be analyzed” samples and molecules. It might not be complete but represents 90% of the core products.
